CPSE**PORTAL**

ICD10 begins October 1, 2015

▶ ICD10 goes into effect October 1, 2015

▶ This transition is based on date of service, not date of entry

  ▶ This means for every entry for a date of service on or after October 1, 2015 must use ICD10.

  ▶ When entering for service dates prior to 10/1/15, you must still use ICD9

Medicaid Alert 14-02

International Classification of Diseases, 10th revision, Clinical Modification (ICD-10-CM)

- Medicaid alerts are available on NYSED's website
  http://www.oms.nysed.gov/medicaid/medicaid_alerts/

- Alert 14-02 discusses ICD10

- SED states that there are several options to get the ICD10 for a particular entry

  These options may include: requesting that the ordering practitioner provide the numeric or alphanumeric code, requesting that the attending practitioner 'translate' the reason/need wording or ICD-9-CM code to an appropriate ICD-10-CM code, consulting coding books and resources, consulting coding professionals with adequate experience, or contacting physicians or other health professionals.

- The SLP, OT, PT, etc. are the attending practitioner and are also considered health professionals

Translating ICD9 to ICD10

- Several websites available (search for "*convert ICD9 to ICD10*")
  - http://www.icd10data.com/Convert
  - https://www.aapc.com/icd-10/codes/
  - ….
- CPSE Portal
  - ICD9 To ICD10 GEMS

ICD9 To ICD10 GEMs
(GEMs = *General* Equivalence Mapping)

▶ This is NOT the definitive guide, this is a tool

▶ It comes from Centers for Medicare and Medicaid Services (CMS)(https://www.cms.gov/medicare/coding/icd10/2015-icd-10-cm-and-gems.html)

▶ The professional needs to use their knowledge and training to determine the appropriate code

▶ Two types of mappings

   ▶ Direct – the mapping is a direct map from ICD9 to ICD10

   ▶ Approximate – the mapping(s) listed is an approximate map from ICD9 to ICD10

Specific developmental disorder of motor function

`2015` `2016` **Billable Code**

- F82 is a billable ICD-10-CM code that can be used to indicate a diagnosis for reimbursement purposes.
- Reimbursement claims with a date of service on or after October 1, 2015 require the use of ICD-10-CM codes.
- This is the American ICD-10-CM version of F82. Other international ICD-10 versions may differ.

Clinical Information
- A disorder characterized by an impairment in the development of an individual's motor coordination skills; this impairment in motor development is not due to a medical condition.
- Marked impairments in the development of motor coordination such that the impairment interferes with activities of daily living. (from dsm-iv, 1994)

Applicable To
- Clumsy child syndrome
- Developmental coordination disorder
- Developmental dyspraxia

Description Synonyms
- Clumsiness
- Clumsiness -motor delay
- Clumsiness, motor delay
- Developmental delay, gross motor
- Fine motor developmental delay
- Gross motor development delay
- Gross motor developmental delay
- Motor delay
- Neuromuscular disorder, clumsiness

Type 1 Excludes ❓
- abnormalities of gait and mobility (R26.-📋)
- lack of coordination (R27.-📋)

Type 2 Excludes ❓
- lack of coordination secondary to intellectual disabilities (F70-F79📋)

PORTAL
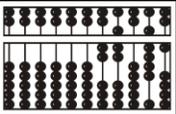

Entering ICD on Attendance

▶ New field (not same type of drop down)

▶ Type part of code and it will auto populate a list and you can then choose the code)

▶ The code will show recent history

▶ You can enter up to 4 diagnosis in the one field

▶ Works for either ICD9 or ICD10 as determined by service date
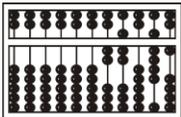

JAMES McGUINNESS

CPSE PORTAL

Default ICD for Enrollment

▶ For the time being we removed the pre-fill of the default ICD for the enrollment. This was to prevent auto filling ICD9 on 10/1/15 and after

▶ We understand people liked this feature

▶ We will put something in place, but may only be for ICD10 (Service dates 10/1/15 and later)

▶ Users should still consciously ensure the correct diagnosis on the service

▶ Children may have multiple diagnosis and the codes may be different from session to session
