Q	If you have a student that requires three sessions a week, but you only have a provider to cover two of those sessions, can you add another line showing "no provider available"?
A	No you cannot add that additional session. Once you find a provider to do the 3 rd session, you will amend the SEIT/RS placement and add the new provider onto the Related Service tab along with your other providers. You most likely will have a different start date for that 3 rd session.
Q	Are the consents that have already been sent to the county prior to implementation of eSTACs being entered into the system?
A	No they are not.
Q	When changing the school district dates, are these dates just for SEIT/RS services? Center Based Programs have different start/end dates?
A	Yes, that is correct. When changing the school district dates, this will only affect SEIT and Related Services. Center Based dates are set by the agency servicing their program.
Q	If I received a STAC-5 in January, do I enter that on paper?
A	All STAC-5's for the 24/25 SY & the 25/26 SY will need to be entered into eSTACs.
Q	When we end date a SEIT/RS placement because of a SEIT provider change and start a new SEIT/RS placement with a new start date, do we need to end date the Related Services? Only the SEIT provider changed, so the IEP doesn't change the Related Services.
A	Yes, you will end date the entire SEIT/RS placement. You will then start a new SEIT/RS placement and add the Related Services onto the new placement. SED requires all services to be on one STAC-1.
Q	My Superintendent signs the STACs. Can they sign and then I submit or do they have to submit?
A	The Superintendent will need to sign & submit the STACs. You will only do the entry work.
Q	Sometimes when we start annual reviews, we don't know next year school dates. IEP Direct can do a mass upload to change dates when they are confirmed. Will eSTACs be doing that if the dates change?

A	eSTACs would not know what the new dates are. You can always email us to see if there is something that can be done on our end.
