

<b>Question Asked</b>	<b>Answer Given</b>
Is there any idea when the email field will be added?	No ETA on adding the email field, but it will happen in a future version.
Can group size be pre-populated at 2, not 1? Technically it should NOT be 1 and we get errors because we forget all the time to change this. So at the minimum 2 would be correct in most cases AND not give us rejections when we forget	We can make a change to allow for a default group size. We will develop that change for a future version. No ETA at this time.
